

# MUDIT NARAYAN SONI

6378549252   Gmail   linkedin   github   codolio

## Summary

---

Aspiring Full Stack Developer and Software Development Engineer with hands-on experience in building end-to-end web applications, with a strong focus on backend development using Django and Flask Proficient in modern technologies such as JavaScript, React, Node.js, and databases, and passionate about developing scalable, efficient, and user-friendly applications

## Education

---

### Chandigarh University

*Bachelor of Engineering in Computer Science (Cloud Computing)*

**Nov 2022 – Jul 2026**

*Mohali, Punjab*

## Experience

---

### Amdox Technologies — Github

**Jan 2026 – Mar 2026**

*Web Developer Intern*

*Remote*

- Built responsive web interfaces, increasing user engagement by 20% through improved UI/UX design.
- Implemented API integrations and dynamic components, reducing response times by 30%.
- Optimized website performance, decreasing page load latency by 25% and improving reliability.
- Maintained code quality through testing and version control, achieving 90%+ bug-free deployments.

## Projects

---

### DSA Visualizer | *Next.js, React, TypeScript, Tailwind CSS*

**View Demo**

- Built an interactive platform to visualize sorting, searching, and traversal algorithms in real time.
- Implemented state-driven React components for step-by-step algorithm execution.
- Designed a responsive, modular UI to improve learning clarity.

### Cloud-Driven User Learning Analytics Platform | *Python, FastAPI, AWS Lambda, Docker*

**View Code**

- Developed a cloud-native analytics platform to process and analyze user activity data in real time.
- Built scalable backend services using FastAPI, REST APIs, AWS Lambda, and Docker.
- Visualized engagement metrics and learning trends using dashboards.

### Microblog Web Application | *Python, Flask, SQLAlchemy, PostgreSQL*

**View Code**

- Developed a full-stack microblog application with authentication and post management.
- Implemented RESTful backend services using Flask and SQLAlchemy.
- Designed secure routing and scalable application architecture.

## Technical Skills

---

|                   |                                                                                   |
|-------------------|-----------------------------------------------------------------------------------|
| Languages         | Python, SQL, HTML, CSS, Shell Scripting                                           |
| Core CS Concepts  | Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Networking |
| Cloud Platforms   | AWS, Azure (EC2, S3, Lambda, IAM)                                                 |
| DevOps Tools      | Docker, Kubernetes, Jenkins, GitHub Actions, Git                                  |
| Frameworks        | Flask, FastAPI, Django, React, Node.js                                            |
| Databases         | MySQL, PostgreSQL, MongoDB                                                        |
| Operating Systems | Linux                                                                             |

## Certifications

---

**AWS Certified Developer – Associate (DVA-C02):** Validated skills in developing and deploying AWS applications.

**DSA in Python – Code and Debug:** Demonstrated proficiency in Python data structures and algorithms.

**AWS Certified Cloud Practitioner (CLF-C02):** Validated AWS cloud, security, pricing, and core service knowledge.

**100 Days of Python – Udemy (Dr. Angela Yu):** Completed hands-on Python programming and automation training.

**AWS Certified AI Practitioner (AIF-C01):** Demonstrated foundational AI/ML and AWS AI service expertise.

## Achievements

---

- Merit-based scholarship recipient at Chandigarh University.
- Ranked top-10 among 1000 participants in a campus-level aptitude competition.
- Achieved 4-star rating on HackerRank for problem-solving.
- Solved 250+ Data Structures and Algorithms problems.
